150 Best Loft Ideas

Bridget Vranckx

Shepherdess Walk

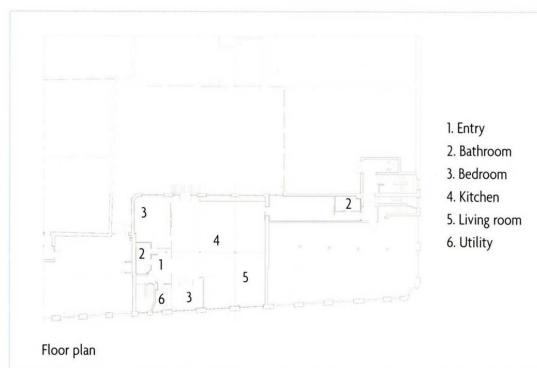

This loft is one of 30 apartments in a converted Victorian clothing factory in Shoreditch, London. The owner was exposed to the loft scene in SoHo, New York, where he lived for a time. When he returned to London, he sought a loft in a former industrial space. The main priorities for its design were space, light, atmosphere, and being able to live and work in the same space.

Architect: Niki Turner Designs
Location: Shoreditch, U.K.
Date of construction: 2003
Photography: Spaceworks.org

96

To help keep the space as open and light as possible, sliding, sound-blasted Perspex screens were used to separate the private areas.

97

The priorities in creating this loft were space, light, atmosphere, and design. The dining area furnishings epitomize that mission.
